## COMMUNITY UNITY LEADS WAY TO SUCCESSFUL LEADERSHIP

Our community is struggling to find balance in these changing times from government political levels and INAC policies.

Every community requires Chief & Council who can interpret and report back to the community in a view of the bigger vision picture of successes.

I am running to seek resolutions to make positive communication between C&C, staff, all members. To strengthen community goals which will instill pride back into our own community projects and reporting outcomes.

But primarily to see our community members look for mutual positive goals and brighter financial future using opportunities, thinking outside of the current INAC government *Indian Act*.

## PRIDE, UNITY, STRENGTH, VISION

*I would like to recognize the past and current Chief & Counsellors for all their hard work bringing Beausoleil First Nation this far and to recognize the difficult and often daunting tasks of balancing many needs and wants of the members as the legal field changes continually between short elections.*

*Working together in a positive way will only lead us to better future outlooks for our member and families.*
