## RE: LOT INSPECTIONS/ BOUNDARY LOCATION & IDENTIFICATION BIG SAND BAY SUBDIVISION & LIGHTHOUSE SUBDIVISION

Dear Lessee(s):

Please be advised that the Beausoleil First Nation, Lands & Resources Department personal will be conducting lot inspections and exterior building inspections and exterior building inspections on a random basis. These inspections will determine whether requirements are being met with codes and standards.

Surveys identifying frontage on all waterfront properties have been conducted, utilizing the Global Positioning System (GPS) Co-ordinates. All waterfront properties have identifiable lot markers/ stakes installed. These markers are permanent fixtures so we ask that they not be removed or tampered with in any way.

This is to clarify any boundary issues that have happened in the past and to avoid any issues that may arise.

Signage is posted at the end of each lane (Beachside), clearly outlining the rules and expectations for beach use by ALL members of the public.

If you have any questions or concerns do not hesitate to contact our office.

Sincerely,

Dana Monague  
A/Co-Lands Manager  
Beausoleil First Nation  
Lands & Resources Dept.

Crystal Roote  
A/Co-Lands Manager
