## COMMUNITY NOTICE

### RE: HOPE ISLAND SOILS REMEDIATION PROJECT

Greetings all,

We have been recently informed of a soils remediation project at Hope Island that has a native content requirement built into the tender documents as circulated by Public Works Canada.

As such, the potential bidders require employees that are full status and registered with Indigenous Services Canada to meet the requirements of the tender.

The tender process closes tomorrow, March 17, 2026, unless extended.

The successful bidder will have 26 weeks to complete the project upon contract signing.

I have been contacted by interested bidders for a pool of names of band members for various positions inclusive of but not limited to:

- General laborers
- Heavy Equipment Operators
- Construction Contractors
- Local Business Vendors
- Forestry workers and Arborists
- Skidder Operators
- Certified Taxi Boat Operators (SVOP)
- Construction Site flagmen
- Security personnel

If any Beausoleil First Nation members have any interest in this particular project and would like your name added to the pool of interested members please send an email to [ajamieson@chimnissing.ca](mailto:ajamieson@chimnissing.ca) and identify for which particular position you would be applying and like to be considered for.

I have also relayed to the inquiring bidders that have made contact that a job fair hosted here on the first nation by the successful bidder would also be a great opportunity to meet with interested members and potential employees.

Respectfully,

**Arnold Jamieson Jr.**  
**Beausoleil First Nation**  
**Manager of Public Works &**  
**Transportation**
