Community Notice – Construction & Renovation Waste

The Beausoleil First Nation Public Works Department would like to remind all residents and contractors that construction and renovation waste is not accepted at the Beausoleil First Nation Landfill Site.

This includes, but is not limited to:

- Drywall
- Lumber and wood debris
- Roofing materials (shingles)
- Flooring
- Insulation
- Cabinets and countertops
- Windows and doors
- Demolition debris
- Other construction and renovation materials

All construction and renovation waste generated from home improvement projects or contractor work must be transported off-island and disposed of at an approved waste disposal facility at the resident's or contractor's expense.

For those requiring disposal services, the Public Works Department recommends Georgian Waste Services, who can be reached at 705-424-0082 to discuss disposal options and fees.

We appreciate your cooperation in helping us protect the landfill's limited capacity and ensure it remains available for approved household waste.

If you have any questions regarding acceptable landfill materials, please contact the Public Works Department.

Thank you for your cooperation.
